A Report on Inter College “**Online Programming Contest**” conducted on Jan 4<sup>th</sup>, 2014.

(Conducted Under CSI)

Department of Computer Science and Engineering have organized an Inter College “**Online Programming Contest**” in association with Computer Society of India(CSI) and under Student Chapter on Jan 4<sup>th</sup>, 2014 at CSE Labs , Ramanujan Block, in Vavasi College campus.

The objectives behind organizing Inter College Online programming Contest were following

- To inculcate the spirit of competitiveness among the future Engineers
- To help the students in identifying the areas of improvements needed
- To instill the Team’s Management skills while working towards common goals.

The online programming contest has witnessed Remarkable number of registrations.

A total of 303 students have participated under Online Programming Contest and the contest took place in 3 different technical rounds to

identify the team having the three properties of the bidding engineer such as sound technical skills and strong basic back ground and rapid decision making skills for the tricky questions were included in each round of scrutiny to identify the young Gems of programming.

Online Programming Contest was organized by the team of students of B.E 3/4 and 4/4 CSE. The programming contest questionnaires were prepared taking the placement point of view into consideration.

The students of Vasavi College of Engineering have bagged 1<sup>st</sup> prize and students of Sreenidhi Institute of Science and Technology have bagged 2<sup>nd</sup> prize.

As per the feedback received from the programming participants, they felt the online programming contest questions to be quite challenging and have help them in experiencing the pressure which they would under when a student has to undergo the online technical test when placements are in place.
