A Report on Seminar on "Qt 4.7"  
(Conducted Under CSI Student Chapter)

A Seminar on "Qt 4.7" was delivered by Mr. Rajeev Kumar, Certified Project Manager at Wipro Technologies on Sept 1st, 2012 for the target audience of BE 2/4 CSE organized by CSI students members of 4/4 & 3/4 CSE (A.Anusha ,M.Rohit Reddy, Ananya Mukherjee and P.Vaishampayan Reddy)

The objectives of the seminar were to motivate the students to develop a strong grip on basic programming languages and to convey the importance of developing applications in them.

The speaker has started the session by sharing his own personal experiences, followed by the brief discussion of concepts related to C & C++ and a special emphasis on the concepts of Signals and Slots.

He made student audience to understand the importance of framework, how the messages are transmitted between clients and a server, how the objects access other objects, the concept of shared memory.

The speaker has discussed about the Qt creator an application built using Qt SDK. Steps to be followed for designing and managing the real time applications. He has also demonstrated previously developed applications, which has created an excitement among the student audience to know the syntax and coding behind the applications.

The session has proven to be informative as queries of many students audience were answered clearly by Mr. Rajeev Kumar.

The seminar concluded by conveying the students of 2/4 CSE A & B to work in team in order to develop the applications using Qt SDK & to submit their applications for the contest to be conducted under CSI events & activities and grab the opportunity to win a cash prize ,an official recognition in CSI Students Chapter of VCE.
