Department Of Computer Science And Engineering  
A Report on ACES session on "Google Speaks" on Sept 28<sup>th</sup> 2012  
(Conducted under ACES activities)

An events under "Google Speaks" was conducted by Akashdeep Singh Jaswal, of 3/4 CSE, Google Student Ambassador, on Sept 28<sup>th</sup>, 2012 for the target audience of 2/4 CSE A & B in seminar hall, Ramanujan Block, VCE under ACES activities.

The event Google speaks was organized in two sessions. In first session a written quiz on Google and Google products was conducted in order to test awareness of students regarding what Google was in past, in present and what it will be future.

In second session a seminar on "Getting the next billion online" was delivered by Akashdeep Singh Jaswal. The seminar has given an insights on the current internet market globally and India's major contribution to it as an emerging market. A video was played during the seminar showcasing

how Google has helped an ordinary person to become an entrepreneur by getting himself to be identified on worldwide through Google.

The session was interactive and informative for the student as they were able to get the answers to quiz questions during seminar.

Speaker has concluded by asking the students to keep them self up breast with the latest Google products by using them in almost every activity they would do in day to day activity.
