A Report on “Career Guidance and a Pre Placement talk” delivered by

Raj Kumar Goel and Srinivas Sareen on Feb 26th,2013

An informative session on Career Guidance and pre placement talk were delivered by Raj Kumar Goel and Srinivas Sareen ,Alumnus of 2010 pass out for the students of BE 3/4 CSE on Feb 26th, 2013. This particular session was a follow up session delivered by Raj Kumar Goel conducted on Jan 30th, 2013 for students of 2/4 CSE.

Srinivas Sareen started off session by introducing himself to the student audiences, shared his thought during his pursuit of engineering studies. Speaker Mr Srinivas Sareen was not so inclined towards getting good percentage and realized the importance of excelling at studies, co curricular and extracurricular activities before the commencement of placements at college campus.

He justified his statement by quote that **“It’s never too late”**.

He worked hard for placements and was successful enough to get through Infosys placement process. After working for some

time for Infosys he moved on to PEGA system which is a dream company for many aspirants.

Speakers have advised student to start practising the quantitative aptitude skills, basics of programming languages and communication skills.

They alerted students to act on what career option to continue with after Engineering Curriculum, have also narrated what courses are available in market, what subjects to prepare for placements.

Speakers had to face few general question of student audiences like importance of extra and co curricular during placements.

To which speakers gave a justifying reply that if company come across a state with two students with similar potentials then these extra-curricular activities would help in taking good decision.

As per students comments session has helped in clarifying few simple and crucial questions with regard to an option of working for some time or opt for further studies and could the opportunity to note few inputs to prepare an effective resume.
