A Report On Guest Lecture on "Cloud Solutions Architect" (Conducted Under Co-Curricular Activities)

A Guest lecture on "Cloud Solutions Architect" was delivered by Mr. Kishore and Mr.Srinivas from a reputed enterprise on Aug 18th ,2012 for the target audience of M.Tech(CSE) Students.

The objective of the lecture was to deliver the need for an enterprise to adapt to the cloud environment ,to discuss the hot cloud models being adapted by an enterprise ,to demonstrate the use of SaaS model by Salesforce.com.

Mr.Kishore started off the lecture with the introduction to what is cloud and continued with session with the emphasizing why companies are moving from on-premise solutions to a cloud environment. He stressed on few of the leading SaaS, Paas and IaaS vendors and

what is the stake of each pioneers in the above said service models. He works on Force.com platform, developing-deploying and customizing the platforms to the needs of his organization.

Later Mr.Srinivas gave a demonstration of how to use the SaaS model provided by Salesforce.com. He also demonstrated how easy it would be to develop & customize the SaaS according to the enterprise needs. He also insisted the students to start developing the applications and also have provided the necessary links to learn from.

The seminar concluded with a detailed Q&A session ensuring that students gained the basics on salesforce.com.
