A Report on “ACUMEN CSFEST 2014” held on 4th January 2014

Acumen CS Fest took place on 4th January 2014 with 939 participations in total. The various events like Online Programming Contest, Online Treasure Hunt, and Code hunt and Project expo which drew large participation.

As a part of the CS-Fest a Gaming Workshop was organized on 31st December 2013 in association with seven summits and Studio Torque and workshop has witnessed around 165 students participated.

Paper presentation was a huge success with around 240 teams participating in it.

Online Programming Contest was launched online for the initial round where more than 200 registrations were recorded. A total of about 88 teams participated in this event for the second round and this was a one of the highlight of CSFest 2014.

Blind Coding was a technical event to write code with the eyes blindfolded. This was an event organized to showcase bright talented programmers. Around 45 students participated in the daylong event.

There were other informal events as well that took were planned as a part of Acumen CSFest 2014 and are Tech-o-take, Key Board Assembly, CPU Assembly, Logo design, Pick & Click 8-Queens, Game 'O' Mania, Temple Run. These events also had good participation overall with a total of around 350 registrations. The winners of all the events were given the appreciation/participation certificates and a cash award.

The Acumen CSFest 2014 concluded the daylong fest and was a Tech day to cherish for all the students, organizers & volunteers.
