A Report on Inter Departmental Technical Essay Writing Competition on “E-Learning vs. Classroom Learning” on 12th Sept, 2014

(Conducted Under IE Student Chapter)

On the eve of Engineer’s Day celebrations department of Computer Science & Engineering have organized Inter Departmental Technical Essay Writing Competition on “**E-learning vs. classroom learning**” on 12th Sept, 2014 conducted under IE Student Chapter.

The objective behind conducting Essay writing Competition were the following

- To provide the platform for students to show case their general writing skills.
- To test interpretation skills of students
- To give them the liberty to express their views on subject. The competition has witnessed 67 students participants from all the department.

The essay topic was announced to the participants 10 minutes prior to commencement of the competition.

The instructions for writing the technical essay writing were also conveyed prior to commencement of the competition.

The participants were excited enough as the topic of competition was of regular practice of the student’s day to day life.

The essays submitted by participants were intensely scrutinized and identified the winners of the Essay Writing Competition.

D. Vyshnavi student of 2/4 Mech – A won the First prize for expressing her thoughts

right from puranas and Vedas and clearly keeping the subject in paces with broad thoughts about the subject.

N. Ashwini student of 2/4 CSE –B won the second prize for organizing the essay with very clear and broad thoughts on both ways of learning.

C.P Anusha student of 2/4 IT -B won the third Prize for expressing the subject in covering all aspects of learning with their advantages and disadvantages.

All the three winners of essay writing competition were awarded with cash prizes on Engineers’ day celebration on 15th Sept 2014.
