## Department of Computer Science & Engineering

A Report on Workshop on "MTA Certification 98-363" conducted on July 17th, 2013

(Conducted under Industry Institute Interaction)

A Workshop on "MTA Certification 98-363" was organized by the Department of Computer Science & Engineering, in association with Microsoft, Edu-Kinect, India for the students of B.E 3/4 CSE on July 17th, 2013 at Seminar Hall ,Ramanujan Block, VCE.

Mr Naga Kumar, Software Engineer , R&D , Microsoft , Edu-Kinect . has taken up sessions during workshop

The objective of the workshop was to train the students for the MTA Certification.

The session started off with the revision of previous concepts. Detailed information about the Tile Notification and XML concepts of App Development were discussed. The major Emphasis was given to the designing part rather than the coding part.

The session continued with the various aspects of the certification- need, importance and its value in today's corporate world. The speaker have also discussed the configurations, web based tasks, design strategies, state management, various data sources, database connections, AJAX and application pools during the workshop.

Microsoft Dreamspark and Windows Store Registration were conveyed in detail. The speaker has shared

The documents pertaining to Microsoft Dreamspark and windows store registration with students.

The students will be taking up the MTA Certification (98-363) at college campus. This certificate is to test the student's Web Development Skills.

Various issues of the students were attended personally by Mr. Naga Kumar.

The session ended with a brief revision of the concepts required for MTA Certification 98-363. Also some additional materials in support to MTA Certification 98-363 were provided to the students.

As per the feedback of students the workshop was truly informative in addition to being very useful and was very encouraging to kit start career in web development.
