

Vasavi College Of Engineering  
Department Of Computer Science & Engineering  
A Session "UberGrad"  
(Conducted Under Co-Curricular Activity)

Mr. Satya Kalyan and Mr. Chandra, experts from SMSCountry have introduced their new initiative UberGrad on Aug 16<sup>th</sup>, 2012 for the 4/4 CSE, IT students.

The session was scheduled to enlighten the students with the current employment scenario in the country and how could their initiatives be useful for the students in gaining new opportunities and also to get recruited early in their engineering career.

Mr Chandra has started off with his acquaintances during his engineering career with Mr. Satya (Alumnus of the 1991 Batch) and

the narration of the success stories of few renewed Indian who has created waves in the world through their remarkable work like development and management of Google News ,Google File System etc... by single Indian, Mr Krishna .

"Indian Have The Most Beautiful Minds", quote mentioned by him to the students & making them feel the same. Ubergrad is a social platform which allows the students to upload their resume in a most attractive way, in turn giving the opportunity to companies to select the deserving students for internship or full time employment in their companies. He also gave a walk through on students can be shortlisted with this innovative means.

The session concluded with the students questions answered by the resource personnel, and also rewarded the students who were most interactive and innovative in their queries.
