

ABOUT THE INSTITUTION

Founded in 1981 by Vasavi Academy of Education, Vasavi College of Engineering (VCE) represents a rich tradition of excellence in technology-based education. A premier-league institution among the affiliates of OU, Vasavi College of Engineering owes its vision to **Sri Pendekanti Venkata Subbaiah**, a veteran statesman of Independent India. The college is currently offering 6 UG and 5 PG programmes. The college has been granted autonomy by the University Grants Commission, New Delhi and Osmania University, Hyderabad for all the programs for a period of six years with effect from 2014-15. **Accredited by NAAC with 'A++' Grade.**

Vision:

Striving for a symbiosis of technological excellence and human values.

Mission:

To arm young brains with competitive technology and nurture holistic development of the individuals for a better tomorrow

Quality Policy:

Education without quality is like a flower without fragrance. It is our earnest resolve to strive towards imparting high standards of teaching, training and developing human resources.

ABOUT THE DEPARTMENT

The department of Information Technology was established in the year 2000. The department offers a 4-year B.E. degree programme in Information Technology with an annual intake of 180 students with specific emphasis on engineering technologies and empirical mode of learning. The programme ensures that the student effectively meets the highest benchmarks of competence required by the industry. The Mission of the department is "to enable the students to acquire outstanding competence and skills in the latest technologies through practice-oriented teaching and training".

Vision:

To be a centre of excellence in core Information Technology and multidisciplinary learning and research, where students get trained in latest technologies for professional and societal growth.

Mission:

To enable the students acquire skills related to latest technologies in IT through practice-oriented teaching and training.

ABOUT THE PROGRAMME

Web designing and development is in tremendous demand these. In this digital era websites are a vital part of every organization.

The objective of Introduction to Internet and Webpage Development training programme for Rural Youth is to impart basic knowledge about Internet and developing Webpages using latest technologies. This Programme works in a learning-by-doing mode. It concentrates more on hands-on experience for the participants rather than theoretical classes.

This training program will help them not only to acquire fundamental knowledge of webpage development, but also further improve their chances of becoming job eligible.

Introduction to Internet and Webpage Development

Description:

This course covers the basics of what is Internet, World Wide Web, various web browsers, Web standards etc. Apart from these, this course mainly focuses on web development that includes Introduction to HTML, CSS, Java script, Bootstrap and other related technologies.
