Our Vision

To be a center for imparting Computer Science and Engineering education and to serve as a valuable resource for the industry and society

Our Mission

To enable the students to develop logic and problem solving approach to help build their careers in the field of computing and provide creative solutions for the benefit of the society.

PEO's

Graduates will possess in-depth knowledge in the area of Computer Science and Engineering and keep up-to-date with life-long learning.

Graduates will be able to develop solutions for problems using latest technologies and possess leadership, communication & teamwork skills in order to function effectively in their profession.

Graduates will apply the values of social, ethical & environmental issues in their work.
