**Action Taken Report**

Date: 16.08.2021

**Action taken report on the suggestions by the members in Board of Studies meetings held on 07.08.2021**

1. Members went through the contents of course "IT Workshop" to be offered in III-Semester for students joining in academic year 2021-2022 (Regulation R21). After going through the curriculum, they suggested that the title of the course should be modified as "Network Engineering Lab".

**Action Taken:**

As per suggestion of BoS Members, 'IT Workshop' lab course is renamed as "Network Engineering Lab".

2. Members felt that more credits should be awarded for Mini-Project and Theme-Based projects.

**Action Taken:**

As per AICTE Model Curriculum, courses like 'Mini-Project' and 'Theme-Based projects' are given sufficient number of credits, 3 in total. To make the activity more impactful Mini Project activity has been considered in three semesters; Mini Project-I in 3<sup>rd</sup> semester, Mini Project-II in 5<sup>th</sup> semester and Theme-Based Project in the 6<sup>th</sup> semester with a weightage of 1 credit each.

3. Members felt that title of the course 'Theory of Automata' may be modified as 'Automata, Languages and Computation' based on the topics being discussed as part of the syllabus.

**Action Taken:**

As per suggestion of BoS Members, 'Theory of Automata' course title is renamed as 'Automata, Languages and Computation'.

4. Members suggested that a course on 'Programming with FPGA' may be offered as an Open Elective by the Department of Electronics and Communication Engineering (ECE).

**Action Taken:**

The same has been communicated to ECE department to explore the possibility to offer the above said course as an open elective.

5. Members advised to minimize the redundancy of topics covered in Professional Electives-Data Analytics and Data Mining.

**Action Taken:**

The input is well received and syllabus has been revisited in the above said courses. There is a overlap of 20%-30%, with core concepts only, but it is justifiable as these two courses are being offered as Professional Electives and it is ensured that a student can take either of these two courses.

6. Members suggested that for the course "Digital Image Processing", being offered as a Professional Elective in VII Semester, content on Video Processing may also be added and the course may be renamed as "Digital Image and Video Processing".

**Action Taken:**

The course contents of "Digital Image Processing" are more appropriate with all necessary concepts in the current version. Video Processing concepts can be included in Computer Vision course based on the possibility.

7. Members suggested that "Predictive Analytics" may be included as a Professional Elective in VII or VIII semesters.

**Action Taken:**

Predictive Analytics, as an individual course, is not listed in Professional Electives. However, most of the contents of 'Predictive Analytics' are already being covered in AI&ML, Data Analytics & Deep Learning courses.

8. Members suggested that conducting a workshop on Research Paper Reading, Writing and Publishing in reputed Journals/Conferences, for students, may be considered.

**Action Taken:**

Some activities to promote and encourage research activities among students and faculty members are already in progress. Further, as per the suggestion of BoS Members, the department conducted expert lectures/guest lectures/workshops/researchers' forum in collaboration with IEEE and other professional societies.
