VASAVI COLLEGE OF ENGINEERING (Autonomous), IBRAHIMBAGH, HYDERABAD – 500 031

INFORMATION TO CANDIDATES

Qualifications & Experience for the Post of Electrician-cum-Generator Operator

Qualification:

- The candidate should have ITI (Industrial Training Institute) Certificate in Electrician Trade.
- Valid 11KV Operation & Maintenance Certification from CEIG

Experience:

• Minimum of 3 to 5 years' experience in handling electrical works, preferably in an educational institution/industry.

Key Responsibilities:

1) Operation & Supervision of Electrical Power House

- Responsible for day-to-day operation, monitoring, and maintenance of the college power house including DG sets, transformer(s), 11KV/440V distribution panels, and associated equipment.
- o Ensure smooth power distribution and minimize downtime.
- Maintain records of power consumption, breakdowns, and preventive maintenance schedules.

2) Electrical Maintenance & Repairs

- Attend and resolve electrical complaints in classrooms, laboratories, offices, and other facilities.
- o Perform preventive and corrective maintenance of electrical wiring, fixtures, fans, lighting, UPS, and backup power systems (generators, inverters, solar systems).
- o Ensure safety standards are followed in all electrical works.

3) Compliance & Safety

- o Ensure compliance with statutory electrical safety standards and guidelines.
- o Carry out periodic inspection and testing of electrical installations.
- Maintain proper documentation of licenses, test reports and approvals from DISCOM/CEIG.

4) Skills Required:

- Strong knowledge of LT & HT systems (up to 11KV).
- Ability to troubleshoot electrical faults quickly and effectively.
- o Familiarity with power factor improvement equipment, DG sets and energy-efficient practices.
- o Good communication and record-keeping skills.

5) Salary:

o Commensurate with qualification and experience.
